Flexibility, Distance, Academic Freedom to pursue one's academic interest.

Not much

Suggestions for changes:

Suggestions for changes:
Nothing. Good as it is
According to me the lectures need to be more specific on the topics of the assignments and we need more information and guidance on the use the litterature
Clear guidelines with regard to the assignments would be very helpful. Im my opinion, it was not clear enough what the professors expect from the students´performance considering the instructions given
Get people involved by making it interesting! I achived an A in social sciences and a D in this subject,,,,, Sad really! It all comes down to the commitment of the teachers. I feel that Reza Banakar is very absent in this course….
